ALEXANDER SETTLEMENT BENEFIT PROVES A BIG AMATEUR SUCCESS

Maui Audience Is Exceedingly Enthusiastic and Performers Produce Clever Skits

(Special Star-Bulletin Correspondence)

WAILUKU, Maui, Jan. 15.—A amateur vaudeville has been attempted on Maui, but never so successfully as last Saturday night, when the benefit for the Alexander Settlement of Wailuku. To say that the affair was under the direction of Mrs. Louise Chisholm Jones is to say it was a highly artistic and musical success. The large hall was well filled by one of the most enthusiastic audiences that ever greeted a Maui performance. The applause was incessant from the time the curtain went up to the final score, which came off about 11 o'clock. Bamboo, ferns and palms turned the show house into a most attractive room. After the performance was over dancing was enjoyed until midnight. A sum of over \$200 was cleared.

The "Twenty Minutes in a Paris Cafe" was most artistic. The costumes were attractive and the whole lighting, dancing and decorations made one of the most pleasing pictures ever presented by a company of people on any Maui stage. All took their parts splendidly. The singing and dancing by Mrs. Kingsbury and Mr. Rattray in "Love Comes Like a Summer Sigh" were extremely pleasing. The chorus work was excellent. Mrs. Carrie Weight did her part well in a very pretty song, while Mrs. Jones as "Sally the Dancing Girl," and later as a Parisian dancer, certainly was most attractive.

Exhibition dancing by Mr. and Mrs. Campbell, the musical act by Mrs. Ralph Walker and Kenneth Smith, the Castle Walk by Miss Anna Wodehouse and Miss Sue Starkweather, and the tango by Miss Wodehouse and Miss Gwendolen von Tempky greatly interested and pleased the spectators. The prettiest number of the whole evening was perhaps the Swiss song, in which Mrs. Jones sang on a garlanded swing while singing a beautiful song about apple blossom time. Her companions clustered about her as she swung and joined in the chorus. Nothing so artistically conceived had ever before been presented here, and the audience was in raptures over it.

Mr. and Mrs. George Weight did exceedingly well in the Indian scene. Their costumes were perfect. The wigwam and whole stage effect was excellent, while their singing and acting showed four of the patient practice. Mrs. Forester's Crusade was most amusing. The acting was capital and the amount of slang that the audience was able to add to its slang vocabulary was astonishing. Mrs. Stevens as Mrs. Forester was attempting to cure her daughter of the use of anything but the best English. How she did not or rather did succeed was the object of the little farce. The cast was: Mrs. Forester—Mrs. Stevens; Helen, her daughter, Miss Armeline von Tempky; Prof. Russell Calvin Butler, T. Desmond Collins.

The most amusing number of the evening's delightful program was that entitled "Stormy Weather." The young husband, Clarence G. White, with Helen, his wife, whose part was taken by Mrs. White, had a most unusual set-to, in which violent accusations were made one against the other with the result that the bitterest family quarrel ensued. It was ended by Helen ringing up the insane asylum instead of the expression when she engaged to take her trunk away from her own home to her mother's. The insane asylum officer, Mr. Willard, was right on the spot and attempting to remove her husband he suddenly put the officer into his own big trunk. As soon as the excitement of the affair was over Helen saw that her husband was not drunk as she had been maintaining, and that the whole affair was simply a misunderstanding. The curtain dropped with Helen in her husband's arms. From start to finish, the little scene was exceedingly funny. Both Mr. and Mrs. White have a remarkable ability for acting, and long since passed the line of amateurs on the stage.

Believing that the city and county physician should not also hold a remunerative job under the territorial board of health, the Democratic county committee last night passed the following resolution:

"Whereas, Dr. R. W. Benz, a member of the Democratic party, and being a practitioner of medicine in good standing, and, in view of his professional and personal attainments, and the desire of the Democratic party to strengthen its position in the community by giving the best possible public service to the poorer people, as well as those of larger means, it is hereby recommended that he be appointed as city and county physician of the city and county of Honolulu; the present incumbent already holding a position under the territorial board of health at a salary of \$250.00 per month; therefore be it

"Resolved, by the Democratic county committee of the city and county of Honolulu, that the said Dr. R. W. Benz is hereby unanimously endorsed and recommended for the above position.

"Introduced by Charles Barton, January 15, 1914, and carried unanimously.

"The Democratic party must go before the people on its record and we believe that while no criticism can be attached to Dr. Watson's professional ability, a physician who is not also holding a position with the board of health can give better service in the city's employ. Dr. Benz is a Democrat, a good physician and honors and remuneration should be more distributed than they are at present. Dr. Benz is a physician for a fraternal order here which includes 500 families and he is popular with all."

The old fashioned woman who used to cry for what she wanted probably acquired as much happiness as the modern militant suffrage.

Girls and boys from 12 to 16 years of age undergo physical changes which tax their strength to the utmost and the strain is always apparent from pale cheeks, colorless lips, and tired bodies—consequences of the skin and the utter lack of the ambition and animation with which their younger years were filled.

Budding into womanhood and manhood, with the duties of school or business, demands concentrated nourishment which is readily convertible into red blood corpuscles, energy and strength, and the very best thing for this changing age is the medical nutriment in Scott's Emulsion—it possesses the rare blood-making properties of cod liver oil in a perfected form; hypophosphites for the nervous system, with the healing, soothing qualities of pure glycerine.

Its nourishing force promotes assimilation, yields direct returns in abundant red blood, fills hollow cheeks, tones the nerves, makes all good food do good, and does it in a natural easy manner.

The mosting nourishment in Scott's Emulsion is so helpful in the changing age that it should never be neglected—every druggist has it.

POISON CLAIMS BIG DEATH TOLL, SAYS DR. PRATT

Would Check Indiscriminate Sale of Death-dealing Drugs—One Death a Month Average

Fifty-nine deaths in four years, or an average of more than one per month have occurred in the territory directly from the use of poison, according to statistics submitted to the territorial board of health yesterday afternoon by Dr. J. S. B. Pratt. In an effort to check to some extent the indiscriminate sale of poisonous drugs the board adopted the following "poison schedule," which clearly sets forth the manner in which these drugs shall be handled by retail apothecaries.

A poison list has been in force several years, but since its formulation new drugs and combinations of drugs have come into the general market, necessitating a revision of the schedule. Dr. Pratt's statistics show that of the 59 deaths from poison in the islands during the period from June, 1908, to July, 1913, 25 deaths were due directly to the use of opium.

The number of victims claimed by other drugs were as follows: Strychnine, 1; carbolic acid, 1; ptomaine, 7; lead, 4; cyanide of potassium, 1; over-indulgence in Florida water, 2; acetanilide, 2; ant. 2; morphine, 2; alcohol, 3; wood alcohol, 3; coal tar (dye), 1; bichloride of mercury, 1; under-terminated, 3.

The poison schedule as adopted by the board is as follows:

Schedule "A." The following substances shall be known as Schedule "A" Drugs and Chemicals; they shall be held to constitute poisons within the meaning of chapter 86 of the Revised Laws, and shall not be sold except under a special license from the board of health or by or under the direct supervision of a duly licensed physician or pharmacist (R. L. 1905):

Alpha eucaine, beta eucaine, cannabis indica, chloral hydrate, oil of bitter almonds, hydrocyanic acid and its salts, nux vomica (strychnine), cocaine, codeine, heroin, morphine, opium, arsenic, or any of the salts, derivatives, compounds or preparations of the foregoing substances.

Schedule "B." The following substances shall be known as Schedule "B" Drugs and Chemicals; they shall be held to constitute poisons within the meaning of chapter 86 of the Revised Laws, and shall not be sold except under a special license from the board of health or by or under the direct supervision of a duly licensed physician or pharmacist (R. L. 1905):

Acetanilide, aconite (aconitine), anupyrine, belladonna (atropine), brucine, cantharides, cocaine (alkaloid of benzol), croton oil, ergot, hydrastine (in golden seal), iodo, phenacetine, phosphorus, or any of the salts, derivatives, preparations or compounds of the foregoing substances.

Arsenical preparations, carbolic acid, chloroform, creosote, muriatic acid, nitric acid, stalic acid, salts of mercury (corrosive sublimate, red and white precipitate of mercury, etc.), sugar of lead, sulphuric acid and tar tar emetic.

Schedule "C." The following substances shall be known as Schedule "C" Drugs and Chemicals and may be sold or delivered by persons who have no pharmacist license or license to sell poisonous drugs, where such substances are sold or delivered in the original unbroken packages and a record of the sale kept as provided for in section 1052 R. L.

Fungicides, insecticides and rat poisons.

4. The box, phial or other package in which any substance included under schedules "B" and "C" aforesaid may be sold or delivered, shall bear a label containing the word "poison" in large letters in both English and Hawaiian languages, together with emblematic devices showing the skull and cross bones.

It was recently found in possession of Mrs. Leslie, who last spring declined to sell it to the British government. It is sought by England as an additional trophy for the British Museum.

The plate, about 12 by 24 inches in size, bears the following inscription: "Near This Spot Fell Capt. James Cook, R. N., Renowned Circumnavigator, Who Discovered These Islands, A. D. 1778—His Majesty's Ship Endeavour, October 17th, 1787. Wm. Carr, Sculpt."

In the suit filed yesterday the territory claims rightful ownership of the relic, adding that although it is of great value as a historical relic the plaintiff is unable to state the value in terms of money.

A writ of replevin was issued by Circuit Judge Robinson this morning and served on Mrs. Fred L. Leslie this afternoon, requiring her to produce the copper plate relic which formerly marked the spot where Captain James Cook died, at Kealahou, Hawaii.

She is ordered to give the relic into the court's custody, to be held pending the outcome of the legal proceedings which the attorney-general has instituted for its recovery as the territory's property.

Few people expose their ignorance by keeping their faces closed.
